

Spector Records International (SRI) Discography

No relation to Phil Spector's work, Spector Records International was started in 1974 by Bayard Spector, who was the vice president of the Spec's Music record-store chain, founded by his father, Mike Spector, in Florida.

Originally distributed by T.K. Records, Spector Records International signed a distribution deal with Capitol in 1979, though evidently no albums came out until 1981..

70000 Series (Distributed by Capitol):
