

United Artists Label Discography

United Artists Records was formed in 1958 in New York City as a division of the United Artists Pictures Corp. United Artists was located at 729 Seventh Avenue. The President of the company was Max Youngstein. The National Sales Manager was Louis H Krefetz. A&R was handled by Don Costa, Bob Crewe, Monte Ky, Jack Lewis and Frank Slay, Jr. United Artists produced popular, r&b, c&w and jazz.

The United Artists and associated label discography was compiled using our record collections, Schwann Catalogs from 1949 to 1982, a Phono-Log from 1963, and various other sources including the Internet. Tracks are listed in the order they appear on the albums, when known. The double slash (//) is indication of the separation between sides. Titles listed without a double slash (//) are listed as printed in the Schwann catalog or Phono-Log, and the separation between side one and side two is unknown. Titles with an asterisk (*) in front of the number have the titles listed alphabetically since track order is unknown. For those albums where the track-by-track stereo content is indicated, (S) means true stereo, (E) means electronic (fake) stereo, and (M) means mono.

The discography covers the United Artists label and its subsidiaries Unart, UA International, UA Latino, DCP International and Veep. We are including distributed labels: Anthem, Avalanche, Blue Note (in the consolidated series), Boyd, Brown Bag, Chi-Sound (in the consolidated series), Grateful Dead, Jet, Magnet, Manhattan Island, Pacific Jazz (in the consolidated series), Poppy (in the consolidated series), Round and Sunburst.

Note: The United Artists Ultra-Audio 3500/8500 Series

The following series of 22 albums were originally released in 1961 and 1962 as the Ultra Audio Series. The original numbers on the albums were WWR 3500 to WWR 3524 monaural and WWS 8500 to WWS 8524 stereo. They appeared in the Schwann catalog as new releases and in the 1963 Phonolog with these numbers. Some time a few months later, the monaural number was changed from 3500 to 7500, the stereo number remained the same. This was probably done to prevent the 3000 series from being confused with 3000/6000 series when it reached 3500 as it did in 1966. Even so, the numbers 3500 to 3524 had no releases on them in 1966. We are not sure precisely when this change occurred; in the March 1963 Schwann Catalog, this series is listed as 3500/8500, but by the October 1966 Schwann Catalog they are listed as the 7000/8000 series.
